

LexPredict ContraxSuite Documentation

Knowledge Sets and Samples
Release 1.0.1 - September 1, 2017

How to Get Support

For support or request for other information, please contact support@contraxsuite.com.

Knowledge Sets

ContraxSuite relies on a number of “Knowledge Sets” that LexPredict has assembled. These knowledge sets are distributed through Github under Creative Commons Attribution Share Alike 4.0 license.

Installation details for these key data sources are available in the Installation and Configuration Guide. While the breadth and depth of knowledge sets will continue to expand, as of August 2017, there are currently knowledge sets representing the following areas:

	English (US/GB)	German (DE)	French (FR)	Spanish (ES)
Legal				
Black’s Dictionary				
US Code of Federal Regulations				
Financial

		*limited translations		
Courts				
US Courts				
Canadian Courts				
German Courts	 *			
Australian Courts				
		*limited translations		
Geopolitical Entities				
Countries				
US Subdivisions (States)				
Canadian Subdivisions (Provinces)				
German Subdivisions (States)				
French Subdivisions (States)				
Australian Subdivisions (States)				
Scientific				
Elements	 			
Chemical Compounds & Common Chemicals				
Hazardous Waste (US Standards)				

Document Samples

Document samples are provided to allow organizations and developers to quickly evaluate, test, and improve ContraxSuite. These samples can be found at the [lexpredict-contraxsuite-samples](#) repository, and include the following document types:

Type	Count
Employment Agreements	1000
Severance Agreements	200
Retirement Plans	100
Software License Agreements	300
Construction Agreements	100
Credit Agreements	500

More Information
